Introduction

Use this document to plan the next sprint. You will need to include this document in your submission.

Sprint Details

What is the **goal** of this sprint?

This sprint focuses on creating the favourite screen and refining the app's UI/UX for seamless interaction.

What are the essential **user stories** to be completed in this sprint?

The user wants to view their list of favourite movies on a dedicated screen.

The user wants the ability to remove movies from their favourite list.

Users want the app to provide a smooth and visually appealing experience.

What are the **security considerations** for features being developed in this sprint?

Protect user-specific data from unauthorised access.

Validate and clean user actions on the favourites screen to prevent issues.

Ensure app data is appropriately handled.
