Introduction

Use this document to plan the next sprint. You will need to include this document in your submission.

Sprint Details

What is the **goal** of this sprint?

This sprint focuses on the movie detail screen, which includes displaying movie information, sharing details, adding to favourites, and also adding the feature of watching the trailer within the app by using web view in the trailer screen.

What are the essential **user stories** to be completed in this sprint?

Users want to view detailed information about a selected movie.

Users want to share a movie's details with others.

Users want to add movies to their favourites for easy access later.

What are the **security considerations** for features being developed in this sprint?

Encrypt locally stored favourite movie data.

Ensure that the sharing functionality cleans data to avoid malicious content sharing.

Use Firebase rules to secure user-specific favourite lists.
